ENJOYED A REUNION
OF ENTIRE FAMILY

Mr. and Mrs. George Gower Have Enjoyable Time With Their Family.
Mr. and Mrs. Gower of La Prairie have the past week been enjoying a reunion of their family after a separation of twenty-three years. Last Sunday they gave a dinner at which were present D. W. Gower of Russell, Kansas; Mr. and Mrs. Chas. Gower of Spokane, Wash.; and Mr. and Mrs. W. C. Gower and daughters Beale and Louise of this city. Mr. and Mrs. Gower recently passed their 50th wedding anniversary but did not celebrate it at the time preferring to wait until it was possible for their entire family to be present, so that the gathering was not only a reunion but a golden wedding as well. To add to their pleasure, a nephew, C. L. Groves, who spent much of his boyhood with them and whom they had not seen for thirty years, came from Portland, Ore., and spent a few days with them, completing their family circle. Mr. and Mrs. Gower are well and favorably known in Janesville and vicinity and have lived here all their lives with the exception of seven years of their young married life which they spent in Russell, Kansas, where they went in 1879. Making the trip overland, it took them five weeks to reach their destination. Their many friends joined in hearty congratulations and wished them many years of happiness yet to come. D. W. Gower states that contrary to previous reports and owing to late rains, Kansas expects to yield her usual bumper crop of wheat and that harvest will begin there in about two weeks, but otherwise he sees no great difference in the progress of late crops such as corn, between Wisconsin and Kansas. Letters received since leaving there say the thermometer registered as high as 102. Mr. Gower's family did not accompany him here as his daughter, Francis, entered Wichita College of Music June 3 for the summer term and it was thought best not to interrupt her studies there. They intend visiting the Alaska-Yukon expedition at Seattle later.

QUEENSBORO BRIDGE OPENED TODAY IN NEW YORK

IMMENSE DEMONSTRATION

Costing \$30,000 For Pump and Pageant Was Given At Exercises At Dedication.
[SPECIAL TO THE GAZETTE.]
New York, June 12.—The Queensboro Bridge, the fourth material link (including the Interborough tunnel) between Manhattan and Long Island, which was without connection when the first bridge across the East river was finished, was formally opened today with imposing ceremonies. A parade of allegorical floats and military and civic organizations marched across the bridge, while a marine band preceded up the East River. The parades were followed by formal exercises in the Plaza in Long Island City in which official representatives of the two boroughs took part. Perhaps a million persons witnessed some portion of the day's program. The elaborately decorated bridge presented a beautiful picture as the big procession of harbor craft moved up and down the river. There were throngs on roof tops, plazas and streets on both sides of the river. The show cost Father Knickerbocker \$30,000, but it was pronounced worth the money. A small army of workmen had been engaged for days arranging the decorations of the new bridge and straining vast lines of red, white and blue incandescent bulbs for the illumination at night. Between the spans there were gigantic coats of arms of the city and state. The parade was one of the most elaborate affairs of the kind seen here in years. The military division com-

FACTS ABOUT THE QUEENSBORO BRIDGE

- It is the largest public cantilever bridge in the world.
- Length of the bridge from shore to shore is 3,725 feet.
- Total length of the bridge including the approaches is 8,617 feet.
- Clear height of the bridge above mean high water is 135 feet.
- The bridge can accommodate 60,000 persons an hour.
- The structure with the laid approaches cost \$12,500,000.

THE NEW BRIDGE IS THE LARGEST CANTILEVER STRUCTURE USED AS A PUBLIC THOROUGHFARE IN THE WORLD

The length of the bridge proper is 3,725 feet. The length of the river span west of the Blackwell's Island is 1,182 feet, and there are only three bridges with longer spans in existence. Then comes, however, the length of the river span east of the island, 984 feet, and the length of the island span, 650 feet. The clear height of the bridge above mean high water is 135 feet. Eight years were required to complete the bridge. There are about 64,000 cubic yards of masonry in the piers and foundations, while the steel of the superstructure weighs approximately 50,000 tons. The length of the Manhattan approach is 1,063 feet, and of the Queens approach 3,630 feet, making the total length of the bridge, including the approaches, over 8,000 feet.

Johnstown, Wis.
P. O. Address, Milton, Wis.

If all-wool fabrics were the rule in men's clothes, there wouldn't be so much reason for warning you against the cheap cotton mixtures.

But the cotton mixtures are the rule, not the exception. A very large percentage of men's clothing made and for sale today has more or less cotton woven in the fabric.

It's so skillfully done, to make it look as much like all-wool as possible, that you can't tell that it's part cotton until you wear it. Even your dealer may be deceived. You generally pay for what it looks like; what you think it is; but you don't always get the value you pay for. Even if the percentage of cotton is small you don't like to feel that you've paid up all-wool price for cotton.

You can't easily be safe; our clothes are of all-wool quality, always.

JIM DUMPS' TALK ON CITY AFFAIRS

DISCUSSES THE 4TH OF JULY, THE STREET CARS AND THE SALOONS.

HAS SOME RADICAL VIEWS

Believes That Much Can Be Done For the Betterment of the Civic Life.

To the Editor: Just at this time the people are all discussing a Fourth of July celebration to be held here on July 4th. It is a good plan. It should be encouraged, but the men in charge of the affair ought to take warning and see that the persons most benefited pay their just proportion of the expense. If a man is certain of making a hundred dollars on the Fourth if we have a celebration he should be willing to pay at least a quarter of his profits to bring about the celebration.

It is merely a business proposition. It is only a fair ratio to give a sum adequate to the needs of the committee so that a celebration can be held and then turn around and make three times as much for themselves. It is the saloons, restaurants, moving picture shows and places of entertainment, as well as ice cream parlors and candy shops that make the real profits on a day like this. The average business man perhaps ultimately gets a share of the money spent but he does not benefit materially by a celebration. If the committee which has this in mind will keep it to the forefront in their deliberations it would be a good thing.

The Street Cars.
It is announced that the street car line is to improve South. This is a good move but a better system out of business unless its owners want to work and put on new cars and otherwise improve the service. The Janesville street car line is a farce and the laughing stock of every adjacent city. Why, during the Odd Fellows' convention men got out and helped push the cars up the hill because they made such an effort to reach the top.

Make Service Good.
It is the fault of the city fathers that we do not have a better street car service. Flat wheels, rickety old cars, dilapidated motors, all are permitted to exist when if they really knew their power they would compel the owners to make the service what should be exacted of a city street car line or put them out of business and make an opportunity for some one who would run a street car line as it should be run to enter the field.

Other City's.
In Beloit the common council told the local street car line if they did not remove a flat wheel on one of their cars they would stop the whole system. The wheel was changed. In Madison the city line was told that if the conductors did not call the streets they would be arrested—several were called. In Janesville you can stand and wave your umbrella or cane and the cars go right by. You can tell the conductor to let you off at a certain corner and he takes the car into the middle of the next block to stop.

Too Rickety.
I never ride on the street cars in Janesville, "said an old lady recently," because they shake me up so. It just wears me out to ride and feel daughter's so I walk instead." This is much fresher air of the service and just a fair example of the service and it is up to somebody to see that it is changed. Someone would make a good campaign slogan on this subject and the suggestion is offered gratis for immediate use.

Missed Opportunity.
The managers of the street car company missed a royal opportunity last week when they did not attend the auction of old cars held in Chicago by the Union Traction company. Why one farmer bought three that were far better than our local cars and took them home, for what do you think, to house his chickens in and he paid five dollars a piece for them too. So the Chicago suburbs run on chickens will perch and lay eggs in better cars than we pay five cents a job to ride in here. They missed a great opportunity and should be censured for it.

The Saloons.
When this subject comes up it makes me boil. The saloons are all right perhaps, a necessary evil, but when people are permitted to run them that have no right to it seems a shame that we can not restrict the number somewhat at least. There are two ways to do this: One by the council refusing to grant licenses to more than thirty or forty of the best applicants and the other by raising the saloon license to a thousand dollars. This latter would keep out the dives and lower class of the drinking places.

Stiff Back Bone.
I hope for one that the council's license committee will have a good stiff back bone when it comes to granting licenses. I hope that the Mayor will back them up and that the Mayor will refuse to sign any permits that are not approved by the committee unanimously. It is the only way to restrict the use of these people who feel the world owes them a living and feel that steps are not too harsh to meet the occasion. I trust that I have not spoken too freely on these subjects and that space may be found for my words.

Conductor Ostrander and Engineer Mallon had 618 this morning.

It is reported that 590 killed a man and a team of horses at the north end of the Monona yards this morning.

One special train from Louisville to Duluth carrying the homeward bound delegates who attended the convention of the Imperial Council of the Mystic Shrine, went through last night at 2:30. The Winnipeg Special, which passed through here June 6, did not return by way of Janesville, but by another route. Engineer Crider and Fireman Bartlett, with engine 1812, brought the first special from Chicago, while Conductor Hollberg and Engineer McHugh, with engine 1081, took the train north from Janesville. It was thought that another special would also be run but the delegates decided to take a regular train and went through to St. Paul on 611.

Chicago, Milwaukee & St. Paul. Fireman Hogan went on this morning on 191 with Engineer Hawthorne.

Engineer Kohler and Fireman Boehm went out on 101 last night and brought in 102 this morning.

Fireman P. Mills came in on 7 last

night with Engineer Muckeden.

Engineer Hagins double-headed Cummingsford this morning on 105 with engine 1379.

It is said that Engineer Cummingsford on 121, brought his train under the wire two lengths to the good yesterday morning in the daily sweepstakes.

THAT'S THE REASON

Now that warmer days have come we wish to speak a few words about our COLORED WASH GOODS

While light lawns and dimities are always in demand the styles seem to run to rougher and heavier goods in the silk finish. With our usual foresight we have bought many beautiful patterns in these styles of goods. As the supply from the manufacturers is limited, we advise you not to delay in buying your wash goods, as no ladies' wardrobe is complete without one or more wash dresses.

For street wear we are showing Rajah, Shantung, Repp, luxury silk, and many other beautiful creations.

OUR RAJAH is a silk warp rough finished material of just the right weight, has a high permanent silk finish. Comes in tan, brown, light Knedrum and light, medium and navy blue, light and smoke gray, wisteria, helio and white; 25 in. 50¢ a yard.

A SIMILAR MATERIAL in all the new colors of a fine mercerized cotton, 25¢, 27 in.

THE SHANTUNG, is also a silk warp goods of the cross weave style, with pretty woven figures, has a beautiful sheen and has proven one of our best sellers this season, comes in all colors and black and white. 27 in. 50¢ a yard.

REPP or cotton poplin seems to be in large demand for outing suits. We have been fortunate in securing an extra fine quality this summer, one that will give the best of service at all times has a permanent mercerized finish.

LUXURY SILK is a medium weighed smooth finished goods highly mercerized, has the soft clinging qualities, so hard to obtain in cotton goods. All of the newest shades, 32 in. 25¢

FOR EVENING and party dresses, in wash materials, nothing equals BANZAI SILK. It is a light weight all silk finish, washes beautifully, comes in self figures, a stripe, also solid colors of almost every conceivable shade, 27 in. 50¢

INDIAN DIMITIES is the best value we have ever shown in sheen muslins, has fine corded stripes and checks, in small floral and conventional designs, in all over and stripe patterns, 27 in. 25¢, others at 18¢, 15¢, 12½¢, 10¢ and 8¢

VANITY KRINKLE is the much used crinkled wash material that we offer. It is especially desirable as a wash material as it requires no ironing. We have in all the plain shades and in shades and in striped persian novelties, 26 in. 25¢ a yard.

The Waite Grass Rug For Porches and Summer Cottages

It is absolutely sanitary and germ proof, easily swept, uninjured by water, light and easy to handle. Lies flat—does not curl. Buying a "Waite" grass rug guarantees you a better rug than you have ever bought before under any name—better in finish, service and durability.

NEWMAN BROS. PIANO

The hastily made piano can be offered for little money. The one upon which expert workmen have put their best efforts and taken ample time to produce must bring a higher price, not only because it has cost more to manufacture but because it is a better instrument. It is worth more.

Experienced musicians and other critical people invariably buy the better grades of pianos, because they know that these instruments not only have finer musical qualities but last longer. Although many low grade pianos are represented as having superior merit, anyone who will simply investigate can readily see the difference between that kind and those which are offered at higher prices by responsible houses. Before accepting a cheap instrument, therefore, take the time to inquire into the differences which really exist between them and the most expensive ones.

Look over our collection. We have not only the higher priced pianos but also the lower priced ones. No matter how much or how little you may wish to invest, you will find that our price on any piano is high enough to enable us to give you a good one and low enough to make value assured.

20th Century Dentistry

In Bridge work—Not plate work.
The wisdom of the past was to have
the aching tooth extracted.
The wisdom of today is to save it.
Bridge work done away with ill
smelling false teeth.
Bridges are fastened permanently
to your own remaining teeth.
They last wonderfully.
Feel just like your own teeth.

BILL OF RADICALS PROVES BOOMERANG

Senator La Follette's Friends Made
Fatal Mistake When They Per-
mitted Owen Bill to Pass.

Up at Madison the men who have
been standing by the conservative
element of the legislature are having a
hearty laugh over the boomerang that
has been sprung on the radicals by
their own work. George P. Mathes,
a correspondent who knows Wisconsin
politics from start to finish, has
the following to say relative to the
matter, which is of interest to all:

"When the campaign of 1910 opened
Senator La Follette will find himself
up against a proposition such as has
not confronted him since he began
his political career as a reformer.
During the last ten years a large por-
tion of his strength has been democ-
ratic. Hereafter he will have to do
without this or the democrats will
have to go without a party organiza-
tion."

"At the last moment, in the closing
days of legislative work, the organi-
zation men slipped one over on the
radical La Follette wing in the pas-
sage of the Owen bill providing that
unless 20 per cent of a party vote is
cast in the primaries that party will
have its candidates placed on the
election ballot under the head of lo-
cal democratic candidates. It is admitted
that democrats in strong republican
counties will have to get out to re-
tain their party name on the ballot.
When the bill came up in the assem-
bly the democrats saw the danger and
tried to avert it but without success.
Assemblyman Hughes, the democratic
floor leader, openly said the passage
of this bill meant the obliteration of
the democratic party in many coun-
ties in the state."

Not intended for Passage.
"Coming as the bill did from a
strong La Follette man and endorsed
by the senate where that wing of the
party had control, it was supposed
that it was destined by the friends of
Senator La Follette. As a matter of
fact the passage of the bill was like
a thunderbolt out of a clear sky to
them. It was never intended the bill
should pass. It was simply one of
the political plays which had been so
common during the long session and
was intended to put the organization
men in the hole. Instead it is the
La Follette wing which is in the hole
while their opponents are standing
about enjoying their discomfiture."

"Every effort was made in the as-
sembly when it was seen the Owen
bill might be concurred in to have
it amended so that it could be sent
back to the senate, where it was
planned to kill it. In this the La Fol-
lette men were unsuccessful and the
bill as it came from the senate was
concurred in and will become a law
of the state. The radicals are great-
ly disgusted at the maneuver in which
they overreached themselves. They
expected all the organization senators
would vote with the democrats and so
kill the bill. Instead they voted for
the measure, thus making its passage
sure."

Minority Leaders Must Take Care.
"Now members of a minority party
will have to remain in their own pri-
maries. If they wish to have party
designation on the official ballot at
the election. It has been shown that
the average party vote cast at the
primaries is less than 40 per cent of
the entire vote at the best. It is
clear, therefore, that minority leaders
will have to keep their followers un-
der lock and key if they are to make
such a showing as will enable them
to keep up the party name."

"It begins to look as if this short
but effective bill will work a radical
change in primary methods in the
state. It will, beyond question, tend
to keep members of a party in their
own primary lines and of wandering in-
to the opposition primary to help out
some one they favor on that side.
While being so it is certain Senator
La Follette will have a big bunch of
votes to make up for his democratic
strength will be severely depleted.
The passage of the Owen bill is one
of the most important victories
achieved by the organization forces
during the session."

MRS. FANNY BENNETT DIED OF PARALYSIS

Old And Honored Jameville Resident
And Business Woman Passed
Away at 3:30 P. M. Yes-
terday.

Mrs. Fanny L. Bennett, owner of
the marble works, succumbed to creep-
ing paralysis at her home, 23 North
Franklin street, at half past three
o'clock yesterday afternoon. She was
stricken during the last week in Feb-
ruary and it has long been known by
her friends that there was no hope
for her recovery. One of the city's
oldest residents, she was well and
favorably known to the entire com-
munity. The deceased was born in
March, 1849, on Bols Blanc, an island
in the Straits of Mackinac, and was
a daughter of the light-house-keeper
there. Her father having died during
her infancy, she remained with the
island but a short time, going with
her mother to Clearmont, Ill. Her
 maiden name was Granger and she
 came to make her home in Jameville
 when fifteen years of age.

On March 29, 1878, she was married
to the late Frank A. Bennett, who suc-
ceeded him as owner and manager of
the marble works and had conducted
the business in a highly successful
manner up to the time of her last
illness. She was a member of the
Methodist church and belonged to the
Order of the Eastern Star.

Those who survive her are two
daughters, Mrs. Olson of Milwaukee,
and Miss Fanny Bennett of this city;
her mother, Mrs. Hyde; and a sister,
Mrs. F. H. Porter, both of whom re-
side here.

Funeral services will be held at the
home at 10:30 Monday morning and
will be conducted by the Rev. James
H. Tippet. The interment will take
place at Oak Hill cemetery.

CARD OF THANKS.

We desire to express our thanks to
those who so thoughtfully remem-
bered us at the death of our mother, and
also for the beautiful floral offerings,
MR. & MRS. LOUIS KESTEL,
MR. & MRS. OTTILIE HEINE,
MR. CHARLES GUMS.

DR. SCHLERINITZAUER TO WED MISS HARDEE

Former Jameville Practitioner And
Charming Young Florida Woman
Will Be United Wednesday.

Friends of Dr. Robert A. Schler-
nitzauer, until recently a practitioner
in this city, have received word of
his forthcoming wedding, next Wed-
nesday evening, to Miss Ruth Hardee
of Rock Lodge, Florida, who has vis-
ited on several occasions at the
Jameville home of her sister, Mrs. G.
Warren Skelly. The doctor left here
about a year ago to take a post-gradu-
ate course in the medical college at
St. Louis and subsequently located at
Cocoa, Fla., which adjoins the winter
resort at his home and will remain
there until after the marriage.

CLINTON MAN FACES CHARGE OF LARCENY

John Singer, Who Was Acquainted
of Burglary in Municipal Court, Re-
Arrested on New Complaint.

After the charge of burglary in the
Smith & Holtum plant in Clinton, pro-
ffered against John Singer of that
village, had been dismissed in the lo-
cal municipal court late yesterday af-
ternoon, the young man was re-arrested
on a new complaint filed by the
same firm and charging him with en-
tering the factory through an open
window and stealing a flashlight. His
examination on the new charge is set
for next Tuesday morning. Singer is
twenty-four years old. It is under-
stood that he does not deny taking a
flashlight with about \$1, but insists
that he walked into the place through
an open door and is not guilty of bur-
glary.

Buy the June Bride

A handsome piece of Furniture or Crockery is the thing.

You don't want your gift to be the duplicate of some one else's gift, do you? Of course not! You want something "different"—something handsome, something useful, something that will live long, something that will be a continual reminder of your wishes for her welfare and happiness. You couldn't do better than confine your choice to one of the hundreds of handsome pieces of Furniture or Crockery to be found on display at this store.

It pays to buy Furniture and Crockery at this store

A Practical Gift

She'll appreciate your good taste

Most of our Furniture and Crockery is exclusive in design and cannot be duplicated among the bride's collection. And you can depend on the quality and wearing qualities of whatever you buy here, for our reputation for dealing only in high grade Furniture and Crockery is too well known for you to have a doubt on this point. Our prices, we know, you'll find most satisfactory. Now is the time to make your selection.

How about a Brass or Iron Bed for her bedroom

These pieces of bed-room furniture are great favorites with almost every woman. You couldn't go wrong if you secured any one of these for her. Come and see these handsome pieces, priced from \$3.00 to \$65.00.

A handsome Dinner Set would be Appreciated

More than likely she hasn't bought all the china she really needs for her new home. If not, then by all means get her one. You'll make a "great hit" with it. They are priced from \$4.50 to \$85.00. 17 open stock patterns.

A China Closet might please her most

Just ask any woman which piece of dining room furniture she prizes most, and she'll surely say, "my china closet." So if you want something particularly nice for the bride, just see that she gets one of our many styles of china closets.

A few suggestions in handsome Odd Pieces

If you are perplexed, don't bother another moment about what you are going to give the bride. Wait until you get here, and if you don't select something from the hundreds of odd pieces we have in stock, we have made a mistake. You see, no matter what price you are prepared to pay, you can be satisfied here.

Fancy China and Cut Glass make ideal Wedding Gifts

A piece of fancy china or cut glass is always an acceptable gift. And so, when it is a thing of beauty, it is indeed a most welcome gift. You certainly will be pleased with our variety of china and cut glass and delighted with the very low prices we've placed upon them.

A Buffet would come as a surprise

If it's a daughter, a niece or a sister who is to be the happy bride, why not let your gift to her be a handsome dining room buffet? She'll prize your gift above everything else. It will make her very happy. Why not come in today and secure a Buffet for her? We'll reserve it for you. They are priced from \$10 to \$75.

ACCUSED ALDRICH OF SOMETRICKERY

UNFIT AS LEADER AND A LEGISLATIVE TRICKSTER, SAYS LA FOLLETTE.

HIS CHARGES BREAK RULES

Vice-President Declares Wisconsin Senator's Personal Attack Improper—Cummins and Beveridge Grilled by Aldrich for Votes on Wool.

Washington, June 12.—In accusing Senator Aldrich of legislative trickery and calling him unfit to be the Republican leader, Senator La Follette, according to a decision of Vice-President Sherman, violated the rules of the senate.

The charge by the Wisconsin senator followed the action of the senate in voting down all of the amendments he had offered to the wool schedule of the tariff bill.

Taking the floor as soon as the La Follette amendments had been rejected, Senator Aldrich declared that the amendment affecting wool of the first class it adopted would have cut down the duty one-half. This he explained was because of the fluctuation in the price of foreign wool, which at times would make the protective duty 4 1/2 instead of 11 cents a pound although on its face it was 45 per cent ad valorem.

Raps Beveridge and Cummins. "I would like to know," said the senator from Rhode Island, "how my friend from Indiana (Senator Beveridge) and how my friend from Iowa (Senator Cummins) will explain their votes in reducing the protection which has been afforded the wool growers of the United States 40 and 50 per cent by their action in this matter?"

"It will keep us much busier," interposed Senator Clapp, "in explaining somebody else's votes." This declaration called forth applause from the galleries, which was quickly suppressed by Vice-President Sherman.

"My votes need no explanation," responded Senator Aldrich, "either to myself or to my constituents to whom I am directly responsible."

As he was speaking, Senator Aldrich produced a telegram which he had just received quoting the Liverpool price of merinos at 13 1/2 cents. That, he said, would mean "a duty of six cents a pound on these merinos, the woolen goods that come more severely in competition with those of the United States than any others."

La Follette in Hot Reply.

No sooner had Senator Aldrich taken his seat than Senator La Follette was upon his feet.

"That statement of the senator from Rhode Island," he said, with impetuous language, "is an impeachment of the leadership of the senator from Rhode Island. The want of confidence which has come to some Republican members in this body would find justification in his course here to-day if it had never before. Reserving his information upon this bill, he compelled everybody to vote upon the amendments paragraph by paragraph. Does he expect to keep the confidence of the Republican membership of this body by a proceeding of that kind? He is the leader of the Republican side and as such he has aided in bringing us into a position of embarrassment before the Republican constituency of our various states."

"The senator from Rhode Island," Senator La Follette continued, "with all his craftiness, has embarrassed the Republicans." He said Senator Aldrich had stated, "half truths, which have discredited his leadership before this body and before this country."

"The senator from Rhode Island need not take to himself any anxiety about the report that senators of the middle west will make when they return to their state and discuss these questions with their constituents. He cannot, by any legislative trick, argue any amendments that have been voted upon, confusing the minds of senators here who have been exercising some independence by holding terror or timidity."

Gallinger Makes Protest.

No sooner had those words been uttered than there was a haughty protest by Senator Gallinger who called upon Vice-President Sherman to invoke paragraph 2 of rule 19.

"In my experience in this body," said Senator Gallinger, "I have never heard so oft-repeated accusation that legislative tricks were being practiced and I ask that this rule be laid before the senate that every one may know what it is."

Sensor Aldrich at the night session announced in reply to a question from Senator Brown of Nebraska that the rates the committee would recommend on wool pulp and print paper would be lower than the existing duties but higher than those in the house bill.

Consideration of the income tax provision went over until next Friday.

TWO EARTHQUAKES IN FRANCE.

Marseilles and Aix Shaken and Eight Dead at Lambesc.

Marseilles, June 12.—Two earthquakes shocks were felt throughout the Riviera between 9 and 11 o'clock last night. While the damage done here was not great, reports from smaller cities show that the effects of the second shock were serious.

At Lambesc, a town of 2,500 inhabitants, 12 miles northwest of Aix, several houses collapsed and eight persons are reported to have been killed. Troops were immediately hurried there to search in the debris for possible dead or injured persons. Several buildings also fell at Enghien, and at Aix a vermicelli factory was partly disabled.

The violence of the shock appeared to have been greatest in the vicinity of Toulon. Warships in the harbor there were shaken from their moorings.

Arrested for Robbing Train.

Rochester, N. Y., June 12.—When New York Central train No. 21, the fast mail, reached this city at two o'clock this morning, five prisoners were turned over to the Rochester police, charged with train robbery. A refrigerator car was broken into at some point east of Syracuse and the entire contents of the car, including many express packages had been ripped open and runnacked.

STABS SHERIFF ON GALLOWES.

Prisoner Fights Fiercely to Escape Being Hanged.

Moreauville, Tex., June 12.—Using as a weapon a metal spoon sharpened keen, Refugio Juarez, sentenced to hang for criminal assault, fought desperately on the scaffold to prevent the execution and succeeded in stabbing Sheriff William Wright over the heart when he attempted to adjust the black cap.

The blade, however, was deflected when it struck a bone and the wound is not considered necessarily serious. When the man was subdued the execution was proceeded with, a brother of the wounded officer acting in his stead.

The first time the trap was sprung Juarez fell across the trap and it was necessary to repeat the preliminaries. The second springing of the trap was successful. The man protested his innocence to the end.

PORTUGAL MAY BE FORCED TO FIGHT.

The disputed territory of the island adjacent Macao now held by Portugal.

Lisbon.—A dispute over the territory adjacent to the island of Macao at the mouth of the Canton river, China, may lead to a rupture between China and Portugal. Every effort is being made to settle the matter over and settle the dispute amicably but China has shown a most decided and definite stand in the matter and unless Portugal comes to China's terms there may be trouble of an international character. Macao is by far the oldest European possession in China. According to the original compact made in 1556 Macao was leased to Portugal subject to annual payment and was ceded in sovereignty in 1863; China retaining jurisdiction over their own people.

The island itself has area of only four square miles. Of its population more than eleven-twentieths are Chinese. Opium is its principle item of commerce and with the decline of the opium trade Macao has dropped off as a commercial asset.

Macao still remains an essential part of the Portuguese territory for it has a coaling station which will be of great asset to Portugal in case of war. The Portuguese government is sending General Joaquim Jose Machado to induce China to come to an amicable understanding.

China holds that all the dependencies of the town of Macao which consists of an extended and fertile territory and numerous islands have been occupied illegally by Portugal for some years that the only concession of territory over made to Portugal was that the territory and islands be evacuated by Portugal.

The Seneca reports that the British government at the request of China has intervened in China's favor.

BANDITS. ROB A STATION.

Loot Northwestern Safe and Assault Agent and a Conductor.

Winona, Minn., June 12.—The Chicago & Northwestern railroad station at New Ulm, was robbed by three masked men, and Conductor A. B. Hutchinson and Night Operator W. H. Miller, who were alone in the station, failing to comply quickly enough to the demand to turn over the station money, were beaten with revolvers until unconscious.

The robbers looted the safe of several hundred dollars, rifled the pockets of the men lying on the floor and escaped.

Lumber Firm Is Bankrupt.

Parlarsburg, W. Va., June 12.—The firm of R. M. Smith & Co., lumber dealers, with large holdings in West Virginia, Indiana and Louisiana, was adjudged a bankrupt by Federal Judge Dayton on voluntary petition. The firm's liabilities are given at \$470,558, with assets of \$384,418.

GOULD DIVORCE CASE IS SPICY

MILLIONAIRE'S WIFE REBUKED BY JUDGE FOR ANNOYING HUSBAND'S COUNSEL.

CROWD GASPS AT GEM BILLS

Gives Amazing Figures as Cost of Jewels, Mentioning \$500 for Stockings as a Mere Trifle.—Buffalo Bill's Name Used.

New York, June 12.—Following the rebuke administered to her by Justice Dowling yesterday, Mrs. Howard Gould today showed little improvement in memory when questions she didn't like were hurled at her by her husband's counsel.

Another interesting phase of the case was a tilt between Lawyers Dolanecy Nicoll for the defendant and Clarence J. Shearn for Mrs. Gould.

"Please try to be polite," Mr. Shearn said to Mr. Nicoll when the latter asked the witness a question sharply. "Oh, I'm sick of trying to be polite. I've been polite all day and Mrs. Gould won't answer a straight question," retorted Nicoll.

"Yes, the witness has given Mr. Nicoll much unnecessary trouble," Justice Dowling interposed.

Makes Use of Bad Memory.

As uncertain as was the witness' memory at times, she did not fail to take advantage of that very fact, when occasion twice offered. Once she apologized for her inability to tell whether certain restaurant checks were hers, saying she was interested in knowing "how her husband spent his money," and again when she could not tell whether a diamond pendant valued at \$13,300 had been bought by her or by her husband "for another."

Dolanecy Nicoll protested vigorously against this insinuation and Justice Dowling with some asperity ordered it stricken from the record.

The amounts of assorted jewels, tailors' costumes and bootmakers' bills continued to make the spectators admitted to the courtroom gasp and stare. The articles purchased included the pearl rope which the witness were listed at \$27,000, the diamond pendant at \$13,300, a diamond chain at \$22,000, a diamond diamond at \$24,000, and a sapphire ring at \$9,000. Such little things as \$500 worth of silk stockings at a time or \$1,528 for shoes were trivial by comparison.

Five tailor-made suits were ordered at a cost of \$5,807.

Because of the great crowd of curious persons who gathered hoping to hear the testimony, the court officers resolved themselves into a committee of selection to weed out those who were not entitled to enter. Men and women, old and young, pressed around the entrance. But strict discrimination was exercised by the men guarding the gate. Only such persons as could give valid reasons for their presence in the courtroom managed to get past the doorknobs.

"Buffalo Bill" Named.

Mrs. Gould was put through a severe cross-examination by Mr. Nicoll and was forced to tell of travels with William F. Cody ("Buffalo Bill") and visits at different hotels by Dustin Farnum, an actor. Mrs. Gould testified to going into her husband's apartments while his major domo, Malloy, was in the room, at which time, she testified, Malloy blew smoke in her face.

The line of questioning caused Mrs. Gould's counsel to make a bitter attack on Howard Gould, who sat in court nearby fumbling a pencil and looking very uncomfortable. The wife's lawyer appealed to the integrity of Judge Dowling and the bench to protect his client from questions concerning her life 15 years before her marriage.

While the judge ruled against the introduction of testimony relating to the plaintiff's life before her marriage, Mr. Nicoll succeeding in forcing answers on this period as showing the witness' credibility.

Mr. Nicoll brought the matter to a point by asking the witness about her connection with "Buffalo Bill's" wild west show.

Objection Is Overruled.

Her counsel promptly objected, but his objection was overruled on the ground that it might apply to the credibility of the witness.

Mrs. Gould at first denied that she traveled with the show, but on being pressed for an answer admitted that she had been with the organization as a guest of Miss Ada Cody, daughter of the showman. Mrs. Gould said that as Col. Cody was her business manager, it had been necessary for her occasionally to visit him. She denied that she had traveled with him.

Zionists Meet in Gotham.

New York, June 12.—The twelfth annual convention of the Federation of American Zionists opened here to-day and will continue until next Wednesday. Of course the main topic of discussion is the movement for the restoration of Palestine to the Jewish people, but other matters of importance to the Hebrew race will be treated. The meeting is the largest of its kind held since the organization of the federation.

NEW CHURCH HOLDS MEETING.

Convention Opens in Brockton, Mass., with Detroit Pastor in Chair.

Brockton, Mass., June 12.—The general convention of the Church of the New Jerusalem opened here to-day, and will continue until next Wednesday evening. For four days the council of ministers, the Sunday School association and other allied organizations have been in session.

Rev. Samuel S. Seward of Detroit, the president, was in the chair when the convention was called to order, and the attendance was large, for the main strength of the church is in New England. Mr. Seward delivered his beautiful address in this vicinity, under the auspices of the American League, which is the young people's organization.

The program for succeeding sessions provides for discussion of "The rural address, and in the afternoon there was an excursion to some of the 'Twentieth Man.'" "What Use Should the Church Make of Advertising?" "Labor and Use," and other live topics.

MILLIONAIRE'S WIFE ELOPES.

Former Detroit Girl Leaves Husband for a Russian Adventurer.

New York, June 12.—John Wright Hunt, an elderly American millionaire, owner of the magnificent Hotel Angelus in Los Angeles, and a string of splendid hotels in California and the southwest, arrived on the Mauretania and told how his beautiful young wife, formerly Miss Henrietta Babcock of Detroit, had deserted him in Paris and eloped with a Russian adventurer.

In the course of his dramatic narrative Mr. Hunt spoke bitterly of Miss Florence Allen of Detroit, a young friend of his wife, who had gone abroad with them. Miss Allen was a passenger on the Mauretania and occupied a stateroom adjoining that of Mr. Hunt, but they did not speak during the voyage.

THE STUFF
THAT GOOD HEALTH IS MADE OF

Bonano

THE NEW HOT FRUIT DRINK

Bonano is a delicious hot beverage, fragrant, nourishing and wholesome. It has a spicy aroma, a rich fruity flavor and a full bland "body" all its own.

It has the nourishment that builds sound bodies, that puts sane energy into the brain, and spring into the walk. It is a food drink for use morning, noon and night. Every cup of it contains part of the good health you ought to have.

Bonano is made only from the meat of different varieties of ripe bananas harvested and dried in the tropics, then granulated, roasted and blended under our own processes.

A 25 cent dust and moisture proof can from your grocer will make 75 cups of a delicious, savory beverage. It is just as easy to make as a cup of coffee, and a great deal more satisfying and economical.

Bonano is good for the children. It will let them drink like "grown-ups" and at the same time give them health and strength.

Every cup of Bonano is a step upward in the road to health and happiness.

Get a can from your grocer today and serve it for breakfast tomorrow.

Or fill in the attached coupon and we'll send you a free sample and a booklet telling you all about Bonano.

RAILWAYS USE LOTS OF TIES ON ROADS

What It Costs to Operate a Railroad
In This Department
Alone.

During the year 1908, the steam and
electric railroads of the United States
purchased more than 112,000,000 cross-
ties, costing, at the point of purchase,
over \$66,000,000, an average of fifty
cents per tie, according to statistics
just made public by the bureau of the
census in co-operation with the United
States forest service. This was some
40,000,000 less than the quantity
purchased in 1907, when the total was
approximately 153,700,000, the highest
ever recorded. The decreased purchase
due in 1908, was, of course, chiefly
due to the business depression which
affected every line of industry. This
forced most of the roads to purchase
only the ties which were absolutely
essential for renewals and heavily
cut down the purchase for new track.
In 1908 only 7,431,000 cross-ties were
reported as purchased for new track
as against 23,557,000 in 1907. Of the
total number of ties purchased for all
purposes, the steam roads took ap-
proximately ninety-four per cent, leav-
ing about six per cent for the electric
roads.

It is very interesting to note the
wide range of woods used for cross-
ties. The preliminary report by the
census bureau lists separately fifteen
classes of species. Of these the oaks
are now and have always been by
far the most important. The oak ties
amounted to more than 48,000,000, or
forty-three per cent of the total quan-
tity purchased. Next to these ranked
the southern yellow pines, with 21,
500,000, or nineteen per cent of the
total. It will be seen that the oaks
and southern pines combined fur-
nished nearly three-fourths of all the
ties bought by the railroad companies
last year. Cedar and chestnut sup-
plied more than 8,000,000 ties each,
and Douglas fir nearly as much. About
4,000,000 tamarack ties were pur-
chased, nearly 3,500,000 cypress ties,
and, in round numbers, 3,000,000 each
of western pine and hemlock. Red-
wood, white pine, lodgepole pine, gum,
beech, spruce, and several other
woods were used in smaller quan-
tities.

While the oaks, and particularly the
white oaks, have always been the pre-
ferred woods for cross-ties and still
form a large proportion of the total,
the increasing prices which the roads
have had to pay for satisfactory oak
ties are forcing them to look more
and more for substitutes. This ac-
counts in part for the great variety
of woods reported. White oak, un-
treated, makes a tie which gives ex-
cellent service for many years, but it
has been found possible to take woods
which naturally are not durable, give
them a treatment with either creosote
or zinc chloride, which will prevent
decay, and thus get much longer ser-
vice from them than can be secured
from untreated oak ties. Among the
woods which have been most largely
treated so far are the yellow pines,
particularly loblolly pine, Douglas fir,
western pine, and lodgepole pine.

This year's statistics add to the
list two kinds of cross-ties which
previously had not been reported in
sufficient quantity to justify listing
them separately. These are gum and
beech. The purchases of gum ties in
1908 exceeded 250,000, while but
slightly more than 15,000 of them
were reported in the previous year.
Of beech ties, the purchases in 1908
amounted to nearly 100,000, against
but little more than 51,000 in 1907.
These are woods which are distinctly
not suitable for cross-ties unless they
are given preservative treatment.
Their increased use, therefore, is one
of the many results of the progress
of wood preservation in the United
States. For many years beech has
been one of the principal cross-tie
woods in Europe, where its value
when given chemical treatment was
long ago recognized. It is not uncom-
mon for European roads to secure
from twenty to thirty years' service
from beech cross-ties. Untreated
ties would not last long enough to
warrant their use at all.

ANOTHER VIEW OF EASTERN QUESTION

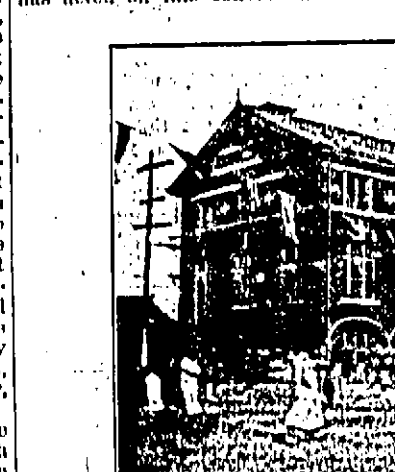

C. V. Hibbard Writes of a "Corner in
Influence," Taking Up Another
Phase of the Manchurian
Question.

When Japan made ready for the
war with Russia they also made
ready for a corps of farmers to follow
the army into Manchuria. Japan
needed more land to cultivate, more
space to move around in than their
little island empire permitted of them.
Following upon the farmers and the
army proper came clerks and
Japanese business men. They found
conditions in the countries and cities
they invaded, appalling, and the Amer-
icans and other foreigners who ac-
companied them were likewise asto-
nished. Mr. C. V. Hibbard was among
the Americans who went with the

A MANCHURIAN CITY

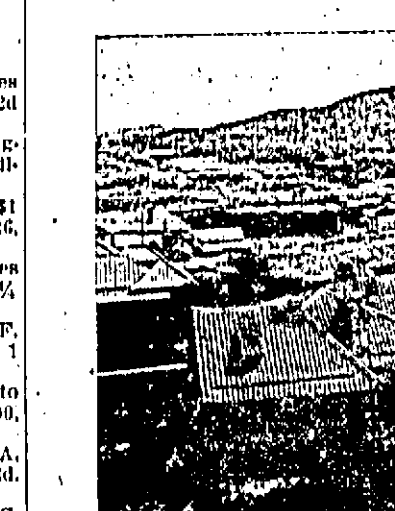

Japanese army of invasion. He is
more than interested in the future of
the strange mingling of the eastern
races and is in this country seeking
financial aid to carry the work of the
Y. M. C. A. into that country. He has
written for the Gazette an interesting
article on a "Corner in Influence,"
which is most interesting reading.
"The Young Men's Christian Associa-
tion has a patent on opportunity in
the Far East," and Mr. Wanamaker
has noted on this conviction in mak-

SEUL Y. M. C. A. BUILDING—THE GIFT OF JOHN M. WANAMAKER

ing his subscriptions of more than a
hundred thousand dollars for the erec-
tion of association buildings at three
great oriental cities, Peking, Seoul,
and Kyoto.

"General Baron Kodama, chief of
staff under Marshall General Oyama,
said: 'We have sought to provide
for our soldiers the best of training,
equipment and medical care, and in a
large measure we have succeeded. We
have long sought to provide for
their social and moral welfare, and
we believe we have found the means
to that end in the army department
of the Young Men's Christian Associa-
tion.' The war department con-
sidered a place of unique influence to
the association in that it insisted that
all Christians wishing to visit the war
territory for work among the soldiers

DAL NY

should make application through the
Young Men's Christian Association.
"Where the language and the think-
ing of a people are impregnated with
morally formed religious ideas which
diverged from practical conduct,
where the priests are ignorant, in-
different and often grossly immoral, it
is difficult, if not impossible, to secure
any adequate comprehension of the
life of Christ through preaching.
When, however, the teachers of
Jesus find expression in practical,
kindly deeds, prejudice melts away
and even stupid ignorance is roused
to a sympathetic interest. Dr. Ly-
man Abbott said: 'Theological dis-
cussion separates men; practical
Christian service unites them.' This
is the Young Men's Christian Associa-
tion with its ministry to the whole
life of man—physical, intellectual,
and spiritual, has come to occupy a
position of unique influence in those
lands where the unwholesome life
of Jesus seems too incredible to be con-
ceived until it is revealed before the
eyes."

prevailing notion that a sandy soil is
essential to the cultivation of bulbs.

IN THE BALANCE AS TO ANY CELEBRATION

Question of Fourth of July Jubilation
Rests with Decision to Be
Reached Tuesday Night.

At the adjourned meeting of the
citizens who wanted a Fourth of July
celebration in Janesville this year
held last evening at the city hall a
second adjournment was taken until
Tuesday night next when a definite
report on the finances is expected to
be made.

It appears now to be simply a
question of finances. The split for a
celebration has been evoked by the
citizens generally but the ways and
means committees have been thus far
unable to secure a sufficient quantity
to give them encouragement to go
ahead with any definite preparation.

A MANCHURIAN CITY

Janesville, Clinton and many ad-
jacent cities and villages are planning
for Fourth celebrations, the majority
of which come on the Saturday be-
fore the Fourth, leaving the following
Monday free for the crowds to come
to Janesville. General opinion fa-
vors a big time, but the question of
paying the bill comes into serious
consideration.

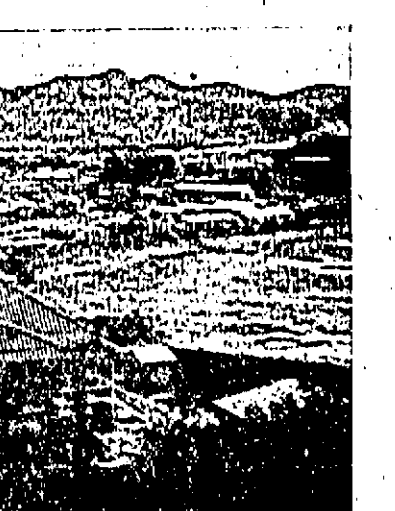

The special committee appointed at
the meeting of last Tuesday consist-
ing of Chas. Putnam, George E. King
and Edward Bauman talked with

DAL NY

many businessmen relative to the
matter and found that a majority of
them were willing to help contribute
as in the past, but there appears to
be a difference in opinion as to what
the total amount raised would be.

It is certain that in order to make
the celebration up to the standard of
previous attempts some sixteen to
eighteen hundred dollars is absolutely
necessary and the gentlemen who
have done the bulk of the work in
the past do not feel justified in going
ahead until at least a goodly portion
of this sum is assured.

DAL NY

A celebration this year should draw
large crowds from many different
parts of the state, particularly the
western portion. Janesville has long
had a reputation for being a city
where the Fourth is properly kept and

every celebration has been bigger and
better than the previous one. To
give a mediocre celebration this year
would be an injury to the city's rep-
utation, hence the desire to see the
money forthcoming before plans are
made is expressed.

Next Tuesday the matter will have
to be decided definitely one way or
the other. It will be too late to ar-
range for bands, vaudeville acts or
even prepare for a Nonesuch show
unless at a much later date. It is
hoped that those most interested in
holding a celebration will bestir them-
selves accordingly and the committee
will be glad to make a report favor-
able for a celebration at the ad-
journed meeting.

FORMER SEMINARY STUDENT IS KILLED

Clyde Munns, Graduate of Evansville
School, Lost His Life at Wono-
woc Yesterday.

Evansville, June 11.—Word has
been received here that Clyde Munns
was killed yesterday in a railroad
accident at Wonoowoc, Wis. Mr.
Munns was well known in this city,
having been a student at the Sem-
inary and was graduated from there
not many years ago. He was a
bright, promising young man and his
sudden and untimely death brings
sorrow to many friends here. The
funeral will probably take place Sun-
day at his home in Pottsville. His
brother, Leo Munns and wife, who
are here from Iowa, visiting relatives
will leave tomorrow to attend the
funeral.

The Rev. Ellen A. Copp was given
a reception last evening by the mem-
bers and friends of the Free Baptist
church in honor of her return to
Janesville. The several pastors of
the city were also present to extend
the welcoming hand to Mrs. Copp
and to share in the pleasure of the
evening. The male quartet rendered
two selections; three young ladies gave
recitations and Rev. North and Rev.
Webster gave short talks. The oc-
casion was a very pleasant one.

Mrs. George Meacham and Mrs. Em-
mer Winter of the local W. R. C.
have been appointed as delegates to
the twenty-sixth annual convention
to be held in Eau Claire next Tues-
day and Wednesday.

Mrs. Frank Rowley arrived last
evening from Minneapolis and after
a week's visit with relatives here
will go to Michigan to visit her par-
ents.

F. A. Baker, D. C. Grubbs, Dr.
Wilson, Dr. C. M. Smith, H. M. Rich-
mond, V. A. Axell and Chris. Jor-
ensen attended a regular meeting and
banquet of the Knights Templars in
Janesville last evening.

The many friends of Alty and Mrs.
F. L. Japan will welcome the news
that their little son Burton, who has
been critically ill for several weeks,
is now somewhat improved and al-
though he is not entirely out of dan-
ger the doctors now hold out strong
hopes for his recovery.

Mrs. Burr Tolles returned from
Madison this afternoon and brings
the good news that Mr. Tolles is
much improved over yesterday and
is resting more easily and it is hoped
that an operation will not be neces-
sary. His father also returned this
evening, but will be a visitor at the
hospital until tomorrow.

Mrs. N. Ballard and Mrs. Ed. Win-
ter are visiting friends in Trempealeau
this week.

Mrs. Nettie Hill of Madison was a
local visitor yesterday. Chicago will
speak in the Free Baptist church
next Sunday evening on "The Home
for Homeless and Dependent Boys in
Chicago, Ill." The lecture will be
illustrated with stereoscopic views.
Mr. Dudley has been superintendent
of this home for the past twenty
years and during that time has
cared for and found homes for more
than five thousand boys. The lec-
ture promises to be very interesting
and all are cordially invited to at-
tend.

Mr. and Mrs. Bert Baker, F. A.
Baker and Mr. and Mrs. C. C.
Broughton will go to Kewanee tomor-
row to remain over Sunday.

Miss Bertha Lang has a narrow
escape from serious injury this after-
noon as she was crossing the high-
road track. Two trains arrive here
about 4:52, one from the north and
one from the south, and as the south-
bound train pulled out she started to
cross and not realizing the incoming
train stepped directly in front of it
and all that saved her was that she
was in a miraculous manner caught
on the cow-catcher. Dr. Evans was
hastily summoned, but at this time
nothing definite can be determined
as to the extent of her injuries, but
it is thought that she is not serious-
ly hurt.

YOUNG MEN WANTED

United States Government Gives Rail-
way Mail Clerks \$900 a Year to
Start, and Increases to \$1200.
Uncle Sam will soon hold postal ex-
aminations in the vicinity of Janes-
ville and throughout the United
States. About 12,000 positions were
filled last year and it is estimated that
50,000 will be filled this year. Any
ambitious young man with only a very
ordinary education can readily pass.
The government wants young men
of common sense to take examina-
tions for railway mail clerks and
postoffice clerks and carriers, and the
Government Positions Bureau, of Roch-
ester, N. Y., with its peculiar knowl-
edge of the requirements of the exam-
ination, can fit any young man in a
short time to pass. A government
position means steady work, good
pay, and a yearly vacation. This
thoroughly equipped Bureau also pre-
pares men and women for Govern-
ment examinations as stenographers,
typewriters, internal revenue and cus-
tom house clerks, storekeepers and
gaugers. No matter where you live,
city or country, you have under the
civil service, as good a chance to se-
cure a good government position as
anyone else. There is time to prepare
for the examination soon to come,
and any reader of the Gazette can get
full information how to proceed, free
of charge, by writing The Government
Positions Bureau, 1493 Hamlin Bldg.,
Rochester, N. Y.

The Evening Chit-Chat

By RUTH CAMERON

If I could only look into the future," we sometimes say. But we'd do better to think into that future.

And if you believe that it's possible for anyone to pull aside the big white curtain even over so slightly you'll do well to keep away from that person.

For while to those who don't believe in them the fortune tellers are harmless amusements, to those who do they are dangerous.

If you can go to the dealers in futures with a light hearted willingness to laugh at what they tell you, go by all means. Someone will undoubtedly assure you that it's a foolish waste of money, but as a matter of fact you are simply buying a new piece of fiction of which you are the hero or heroine. Why isn't that just as legitimate a use of your money as if you bought the latest best seller?

I don't think I ever got my money's worth any more thoroughly than one day when I was at college and a half dozen of us cut regulations and went for a "tear," which ended up at a fortune teller's rooms.

One could have one's fortune told for any sum from 25c up to \$2, and owing to the fact that it was as near the end of our purses as it was the end of the day we all declared for a 25c fortune, much to the fortune teller's indignation. We felt rather cheap beneath the scorn of her wrathful eyes at the time, but I was very glad afterwards, for this is the way she concluded her reading of my palm:

"and you'll be married twice and have from five to ten children. And I can't give you any more for a quarter."

Suppose I had paid fifty cents.

Despite that harrowing escape I do think that for a "tear" pure and simple there is nothing much more successful than a visit to the dealer in futures. But if there is the very slightest danger of your taking the thing seriously, by all means don't run the risk of being made unhappy.

I know a girl who went to a very reliable astrologist. He had told several of her friends startlingly true things about their pasts and futures and she went to him ready to believe anything that he said as the respect truth.

She was a girl of a very sweet and happy disposition but she has actually been changed into an unhappy—almost sored—woman by that experience.

For the astrologist told her that she would never be married, that most of her good times were past and several more cheerful bits of information along that line.

Another woman who is none too optimistic or self confident under any conditions, was assured by a palmist in whose powers she had unfeigned faith, that she was to have twenty years of hard luck. Naturally she has not grown any more self-confident or optimistic.

A dear friend of mine worried herself almost into nervous prostration over the prophecy of a death in her family. Fortunately a time limit was put upon the prophecy—"within a year"—and when that year had passed safely she came out from the cloud of fear which had shadowed her.

She related the experience to me the other day with considerable warmth and told me that she had about decided to devote her leisure time for the rest of her life to a society "to prevent impressionable women from having their fortunes told."

If she does I'm to be a charter member.

attempt. The gang of velvet-footed gentlemen who seem to be among us, were confined their operations to the First Ward last night. They entered the house of a Mr. Fox, by means of a ladder through a second story window and administered chloroform to some of the inmates of the house. A boy's watch was the main result at this place. The house of W. H. Roberts, 1240, was entered as was also that of Col. W. B. Britton and Mr. Wm. Cannon and Alex. Graham. An attempt was made to enter the house of Mr. W. H. Noyes but the rogues were discovered before they were successful.

Notice of Hearing.
STATE OF WISCONSIN.
County Court for Rock County.
Notice is hereby given that on a special term of the county court to be held in and for said county, at the court house, in the city of Janesville, in said county, on the 10th day of June, A. D. 1900, the following matter will be heard and considered:—The application of Frank Hill for the adjustment and allowance of final account of administrator with will annexed of the estate of Jacob Klein, late of the city of Janesville, in said county, deceased, and the petition of the residuary of said estate, to such other persons as are by law and the will of said deceased entitled thereto.
Dated June 12, 1900.
By the Court:
J. W. SALLS, County Judge.

Reader's Faithful Friends.
Tradition is but a motor, which, if it once falls, cannot be rekindled. Memory, once interrupted, is not to be recalled. But written learning is a fixed luminary, which, after the cloud that had hidden it has passed away, is again bright in its proper station. So the books are faithful repositories, which may be awhile neglected or forgotten, but when opened again, will again impart instruction.—Dr. Johnson.

To Remove Superfluous Hair
Dr. Almsworth, the prominent physician, says: "I can truly say that I consider the only reliable preparation on the market for the removal of superfluous hair. I have used many preparations for that purpose, but none gave me satisfaction. I prepared that will do all that is claimed for it by the manufacturers, and which gives perfect satisfaction in all cases." Let me take a doctor's advice; don't be deceived with fake PREPARED. Painless, worthless cauterizations are dangerous; besides, after you have used them I will be harder to remove the hair. The Almsworth is sold by People's Drug Co. and all other good stores. Booklet free. Mail send enclosure by Dr. Almsworth, Chem. Co., Box 11, 1003 Park Ave., New York.

FOR YOUR HEALTH'S SAKE
AIR AND BREATHING.
Pure air and plenty of it, together with proper breathing, will keep the blood clean and the body healthy. This means that if we worked our lungs more and our stomachs less we would all be healthier and happier. Eating too much and breathing too little is the cause of much sickness and many doctor's bills.

Battleship "Albatross" Wonder.
Provincetown, Mass., June 12.—The general showing of the battleship Michigan in the tests thus far preparatory to her acceptance by the government, is believed to constitute the most remarkable performance of any battleship of her size and power ever built. The Michigan has now been tuned up for the remaining tests, chief among which is the 24-hour test at full speed.
